Professor of Psychology, Neurology, Psychiatry, Medicine and Surgery
at the University of Arizona

Monday, October 13, 2003

Energy Medicine: What is it and Why do we Think it Works?

9:30 - 11:00 am

Lower Level Conference Room, D-Building

914 South Eighth Street

On the campus of Hennepin County Medical Center

Methodological Challenges in Energy Medicine Research

4:00 - 5:30 pm

Cancer Center Research Building, (CCRB)

Room 450

425 East River Road

University of MN East Bank Campus

Dr. Schwartz is the Director of the University of Arizona's Human Energy Systems Laboratory. In 2002, he was awarded the Directorship for the NIH-funded Center for Frontier Medicine in Biofield Science. He served as the Director of the Bioenergy Core for the Pediatric Alternative Medicine Center and was the Director of the Canyon Ranch Graduate Fellowship Program in Energy Medicine Research.

The Minnesota Consortium for CAM Clinical Research fosters rigorous, high-quality, scientific, clinical research in complementary and alternative medicine (CAM). Institutional affiliations of Consortium members are the Minneapolis Medical Research Foundation (Berman Center; the HFA Alternative Medicine Clinic), the University of Minnesota (Center for Spirituality and Healing; the MS Clinical Research Program; the Division of Health Services Research and Policy), and Northwestern Health Sciences University (Wolfe-Harris Center for Clinical Studies).
